## DAY ONE FORMULA FOR WHITETAIL DEER AND ELK

*Species Specific. Easy To Use. Trustworthy.*

### "Saving Lives for 16 Years"

- A-kritin protein from premium food-grade milk ingredients
- Complete complement of vitamins and minerals
- Balanced fatty acids including medium chain fatty acids for easy digestion
- No refrigeration required after opening
- Available in 20 lb. and 3 lb. pails
- 18 month shelf life

Day One Formulas are species specific formulations having the required protein and fat for neonatal growth. Recommended for those neonates who are orphaned or will not, or cannot suckle on their own.

Fox Valley Animal Nutrition Inc. has manufactured Day One species specific formulas for the animal industry using state-of-the-art technology developed by research, development, and testing. We produce a wide variety of natural milk replacer products that are needed for animal health, growth, and profitability. We are only the highest quality raw ingredients available.

Choosing a milk replacer that is as close as possible to natural milk for the animal and milk of the species will result in better animal health, growth and performance. Lesser products can produce a myriad of growth problems for neonates in the field, while less palatable ingredients can inhibit feeding programs. Fox Valley Animal Nutrition Inc. will continue to develop the best products available for comparison in the various rearing situations, from wildlife rehab clinics, and the world's commercial industry.

DOB: 6/1/2022. Located at Mad Bucks, Burnet, Texas. Have you ever felt like you never get the chance to get in at the bottom a great opportunity? Well... here is your chance!!! No Brainer is possibly the best pedigreed 2 year old Bullwinkle son on the market today. The apple didn't fall far from the tree here. No Brainer not only has the pedigree but also the look every breeder dreams to see in their two year old breeder stock. **There are currently only 5 known direct No Brainer daughters existing today.** Two at Cross Canyon and three at Texas Mad Bucks. Don't let this opportunity to be at the very start of this exciting new line. This opportunity is truly a "NO BRAINER". Bullwinkle just does not miss and neither will this son. **\*\*Available for pickup immediately; delivery can be arranged at purchaser's expense\*\***

CH197 2-2858	BA35 2-1389	KR Thunderstruck

CK601 is a direct daughter of Mr Big out of our Chief daughter CH197. Mr Big has quickly become one of the top living producers in the industry. He has passed on his flare, palm and wow factor to sons in every age class to date. A few notable sons from Mr Big that we are currently breeding with are Big Rig, Phoenix, Big Shot, and Huckleberry. Past breeders are Big Wig, Big Easy and Batt N' Big. Also we are pleased with the many sons our customers are also using in their breeding programs. **Mr Bigs first set of daughters have sons that turned two this year and are of excellent quality**. His daughters are following in their daddy's footsteps! Owning Mr Big has been an honor and we have coveted his daughters. The dam of CK601 has already proven herself with giving us some daughters and her first son turned two this year and Colby rated him excellent. CK601 is currently breeding to our massive framed King, who is a son of Royal. So the partnership will have its first fawn with a deep packed pedigree on the ground this spring. CK601 is 100% Sola Fe Ranch genetics. We are excited to partner with you on this top doe and see what BIG things the future holds!

## 3-5 New Zealand Red Deer Hinds w/ Stag option

*2 Year Old*

*2 Year Olds*

*2 Year Old*

Here's a chance to get a jump start in the monster Red Stag business with 3-5 hinds all out of direct New Zealand genetics. Hinds were Al'd to New Zealand sires and covered by our top pure New Zealand 3 year olds this year. **Our program has steadily produced some of the best stags in the country and our younger stags will continue to push the envelope with our 2 year old crop growing 15 stags over 400" this year.** Hinds and cover stags are registered in the EWA registry so pedigree information should be available to buyer on all 2023 offspring. As an added bonus, the purchase of this lot will get an option to buy a 3 or 4 year old stag this summer after antlers are grown out at normal rates. We are currently sold out of stags for 2023 so this will be the only opportunity to get a monster breeder out of the herd for 2023! Hinds are sold times the money.
