Selling 50% interest in Jewel. She's a calm girl and 2x's Rolex. She would fit well into an AI program. I no longer do any AI but she took both times when I did. Move her to your place and breed her how you would like. Great mother, she has had triplets the last two years and twins every year before that. 75% buck fawns. Has not had a yearling under 130 inches. She's a great investment and I look forward to partnering on her.

Thanks to Twin Maple Deer Farm for selling us this buck.

Here at Backyard our focus is on producing clean, long tined typical Bucks with consistency. We are excited about our doe lineup and the crosses we have made through our AI program.
